AUTHOR INDEX

During the preparation of the Author Index, it was discovered that there was an error in the pagination of the July 1987 issue, which began with page 347, but should have begun with page 447. As a result, the May 1987 issue and the July 1987 issue contain overlapping page numbers in the 300s and 400s. For the sake of clarification, "May" and "July" follow the page numbers for articles that appeared in these two issues.

The pagination of the November 1987 issue proceeds as it would have had the error in the pagination of the July 1987 issue not occurred.
